

Human Body: Lymphatic System Review

Essential Question: What is the structure and function of the lymphatic system?

Objective: Review lymphatic system structure and function for test preparation.

Without using any resources, fill in this table.

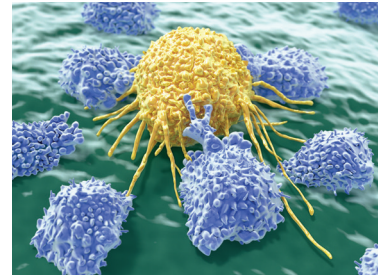

Structure	Location(s)	Function(s)
1. Tonsils and adenoids		
2. Thymus		
3. Spleen		
4. Lymph nodes		
5. Lymphatic vessels		

Complete the simile:

The lymphatic system is like the circulatory system because:

Human Body: Lymphatic System Review

Construct a flow chart that shows how the lymphatic system responds to pathogenic bacteria that enter through the nose.

Compare the 3 types of lymphocytes: T cells, B cells, and natural killer (NK) cells.

T cells

B cells

NK cells
