

# Human Body: Reproductive System Review

**Essential Question:** What are animal reproductive methods?

**Objectives:** 1. Compare the 2 methods of reproduction.  
2. Review the anatomy of human sexual reproduction.

Use this Venn diagram to compare and contrast sexual and asexual reproduction.

## Vocabulary

**Define the following:**

Asexual Reproduction

Eggs

Gametes

Genetic Recombination

Regeneration

Sexual Reproduction

Budding

Fertilization

Genetic Diversity

Parthenogenesis

Sex Hormones

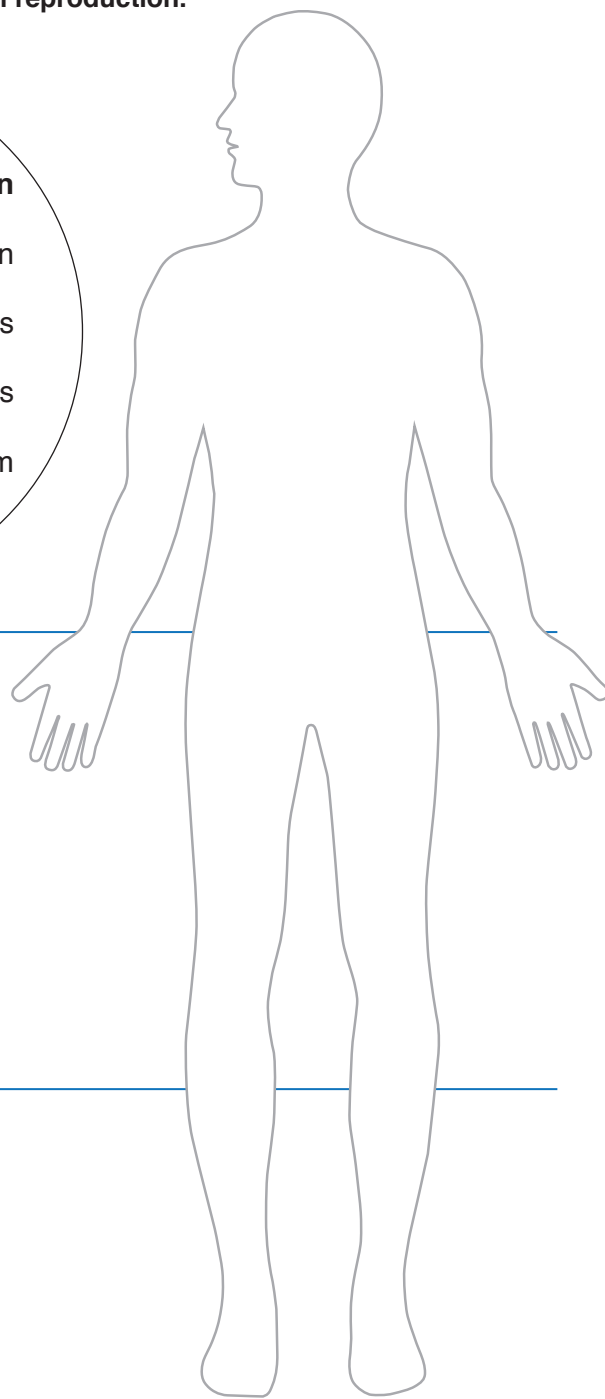

Sperm

**Explain the homologous nature of these anatomical pairs:**

Ovary and Testis

Fallopian Tube and Vas Deferens

Vagina and Urethra

Use this diagram for sketching and labeling.
